CONGRATULATIONS!

The following child care centers have strived to go above and beyond the basic licensing standards to become accredited through our accreditation facilitation project. Through the accreditation facilitation project at Child Care Resource and Referral these programs have set goals, worked to improve quality, made needed improvements, and became outstanding professionals in child care. The accreditation facilitation project assists programs in working through the accreditation process. Programs receive incentives, mini grants, and professional development scholarships. If your program is interested in working on accreditation please call Christy Colyer for more information at 1-800-811-1127 ext 4 or (573)290-5572.
